No.	Maintenance Item	Description	In charge	4-Apr-24												5-Apr-24											
				8:00	9:00	10:00	11:00	12:00	13:00	14:00	15:00	16:00	17:00	8:00	9:00	10:00	11:00	12:00	13:00	14:00	15:00	16:00	17:00				
1	Safety training and PPE check	Safety confirmation and training before start work	EGAT																								
2	PV module cleaning	Cleaning PV module	TEAM A																								
	Thermoscan PV Module	1. T0018																									
		2. T0011																									
		3. T0007																									
		4. T0020																									
3	Insulation tester	Confirm torque check for PV and walkway	TEAM C																								
		1. T0018																									
		2. T0011																									
		3. T0007																									
		4. T0020																									
4	Torque Check	Confirm torque check for PV and walkway	TEAM B																								
		1. T0018																									
		2. T0011																									
		3. T0007																									
		4. T0020																									
5	Cleaning and environment check	1. Check connection and temperature for inverter, RTU, MCCB, pump station etc.	TEAM C																								
		1. T0018																									
		2. T0011																									
		3. T0007																									
		4. T0020																									
6	Network and communication	Confirm network and communication	TEAM D																								
		1. T0018																									
		2. T0011																									
		3. T0007																									
		4. T0020																									
7	SCADA SERVER	1. Reboot SCADA and web server																									
		2. Alert and alarm list confirm																									
		2. Commisio test
